GLASS 

In the heart of the Dolomites, in Belluno, our studio was born - a place of inspiration and creativity immersed in unspoiled nature. Here, among the mountains that have always symbolized beauty and perfection, we lovingly and meticulously craft glass plates with a modern, contemporary design, created to enhance the culinary experience of gourmet and fine dining restaurants.

Each of our pieces is the result of careful, purely manual craftsmanship, carried out with precision and care. This process ensures that every piece is a unique work of art, with its own shades, imperfections, and details that make it one of a kind.

Our philosophy is rooted in the belief that beauty lies in uniqueness and attention to detail, and for this reason, every creation is an authentic expression of art and design.

Our inspiration comes from the nature that surrounds us : the Dolomites and from the input we receive from our clients, which sparks new ideas, reactions, creativity, and action. Our production operates with great respect for the environment and local traditions, carrying forward a craft that blends innovation with a deep connection to the place where we live and work.

Our style is characterized by clean lines, essential forms, and a minimalist aesthetic, perfectly complementing the modern, welcoming atmospheres of gourmet restaurants. The transparency and brightness of the glass, combined with a contemporary aesthetic, highlight the presentation of dishes, creating a balance between functionality and beauty.

ABOUT US

We are the beating heart of our company: we bring, in our own small way, passion, creativity, and a unique touch to the world of gastronomy and cuisine.

Maya. Originally from São Paulo, Brazil, she dedicated much of her professional life to the artistic processing of glass in her home country. Her passion for art and design brought her to Italy, where she decided to expand her knowledge and channel all her creativity into our common project.

Denis. Born in Belluno, he has more than twenty years of experience in the glass industry, developed in both the industrial and artistic sectors. His deep knowledge of glassworking techniques turns on into creations that combine functionality and beauty, with a touch of innovation and tradition.

TAILOR MADE

Imagine being able to bring your most innovative ideas to life, to transform every detail into a unique and original work of art. That is our mission: to create completely custom-made plates, carefully and precisely following every client request.

Our experience allows us to create pieces that are much more than simple plates — they are true expressions of style, creativity, and personality. Whether you desire specific shapes, different colors, or exclusive designs, we listen to your ideas and bring them to life, with a meticulous eye for detail and a touch of originality that makes all the difference.

We are here to support you on your journey of innovation, helping you express your creativity through products that tell stories of art, perfection, and passion. Because, in the end, it's not just about making a plate — it's about creating an unforgettable experience.
