DESIGNER

The founder of the brand, Lolita Senkeeva, constantly explores the boundaries of possibility in tableware and interior design, bringing the most current trends into new collections.

PRODUCTION

Our projects may seem simple, but their realization requires technically complex processes.

KENAI is a complete cycle of handcrafting at all stages of production using impressive glazes and high-quality natural materials. The tableware undergoes a double firing process, which means it will serve you reliably for many years.

In 2015, the company began producing high-quality handmade ceramics. Traditional materials are reimaged in KENAI products through a unique language of color and form. High product quality and the uniqueness of the range have become the main values and guiding principles for the team's work.

DINNERWARE

UNO

Our UNO collection is a delicate symbiosis of urban minimalism and natural simplicity. The deep, grassy Green evokes associations with vegetation persistently breaking through the resilient expanse of stone jungles, while the strictness and fundamentality of the Grey hue provides a sense of security and brings tranquility and comfort to the routine of everyday life. Thus, UNO is a duet of two moods, a metaphorical unity of contradictions that embodies a person's life in the rhythm of a modern metropolis.

BAMBU RICE

A duet of Eastern exoticism and Mediterranean lightness, perfectly embodying the summer mood. This collection effortlessly blends into any culture, whether it be Pan-Asian cuisine, the diversity of the Mediterranean, the power of Italian flavors, or Greek sophistication. Elegant charger plates, a salad bowl, and a deep soup plate are the core shapes of the collection. Bambu Rice represents freshness, lightness, and versatility combined in one collection.

DARK SIDE

Polar Night is a period when the sun does not rise above the horizon for more than 24 hours (i.e., over a full day). The completely frozen, majestic world astonishes with the contrast between the blinding white silence of the snow and the darkness of the northern night. It is something alluring, mysterious, yet also formidable and awe-inspiring. Dark Side embodies the mesmerizing charm of the cold starry sky, where the Shade hue symbolizes a scattering of millions of lights across the boundless night canvas.

NORDLINE

The Nordline collection represents a new stage in the development of the Kenai brand. This time, we were inspired by Norwegian simplicity and modern Scandinavian style. We worked on this line with love and care, resulting in six elegant shapes and two sophisticated hues—gray-pink Snowfall and rich graphite Mist. The Nordline collection features minimalist lines and the understated charm of the North.

HAND MADE

COSMOS

One of the most popular lines of our brand. Cosmos and infinity are inexhaustible sources of inspiration. Planets and comets are reflected in the shapes of the collection—round and droplet-shaped plates. The hues Moon and Callisto (named after Jupiter's second-largest moon) are direct references to the images that particularly captivated us.

FOCUS

What is important for a chef to achieve an impressive presentation? The right accent! Focus. The exact and precise one. The collection is designed to focus attention on the important—emerald hues of fresh greens, the juiciness of a steak, the velvety texture of a sauce, and the exquisite aroma of a culinary masterpiece.

The creation of such harmonious shapes and colors was inspired by a challenging period for everyone—the global lockdown. During such times, you begin to truly value what matters—time and the harmony between the inner self and the external world. You concentrate to feel your emotions. The rich hue Deep represents self-discovery, the contemplation of the depths of one's "self."

AZORES

Discover the turquoise vastness of the Atlantic Ocean in our Azores collection. The shade Pico was created to elegantly frame a dish, just as the mountain of the same name was crafted by nature to perfectly adorn the horizon. Corvo hides the beauty of scattered volcanic pools across the islands. Our artisans created the shade Lava, reflecting the unique textures of solidified lava. São Miguel is mirrored in the stunning hue Fogu. Terra transports us to the fiery roads of the Azores desert. The shade Kuraish combines the island's green exuberance with the delicate mist of cumulus clouds.

SEASHORE

The Seashore collection was inspired by an early, calm morning on the shore during a calm sea. The shapes seem to be sculpted by the sea wave, with their soft lines embracing and soothing. The marine element is embodied in the pastel shade of sea sand. Seashore is an opportunity to hear and feel the sea in your own home.

STONE

Stone is a symbol of stability, immutability, and strength. We were inspired by the shades of jade, onyx, granite, and milky quartz, and decided to incorporate them into this new line. The smoothness of stone, shaped by nature itself, is reflected in the streamlined forms that distinguish Stone from other Kenai collections.

CIRCLE

The power of the wind inspired our team to create this collection. Flat plates with a straight rim in pastel shades will appeal to minimalism enthusiasts. Each shade is named after a local wind:

- Bora — a strong cold wind blowing in winter in coastal areas.
- Mistral — a cold wind from the south of France.
- Simoon — a hot dry wind blowing in the deserts of North Africa.
- Finally, Sarma — a strong wind from the western coast of Baikal.
