Melamine is a thermosetting resin, aesthetically similar to porcelain. Items manufactured with melamine are light, resistant and robust. They do not absorb odors and can withstand temperatures from -20°C to 70°C. Our melamine products are certified to come in contact with food in compliance with EU Regulations 1935/2004, 284/2011 and 10/2011. Moreover, they also meet the requirements of the new Regulation UE 1245/2020, which updates the Regulation UE 10/2011 by setting out more strict standards.
