

SKLARNA

THE ART OF PRACTICAL HANDCRAFTED
TABLEWARE

Natural, simple shapes are at the heart of Sklarna's design. We create glassware by hand, using heat and gravity.

In places the glass becomes translucent, and others, opaque. So, by just using one material, we offer chefs a large palette for creativity.

We are constantly improving the technology, looking for something new, not only in appearance, but also in the way we create.. This is how **one of the areas of our workshop appeared - upcycling**, working with recycled materials.
