

Cocktail Shaker

The Birdy by Erik Lorincz 3-piece Cocktail Shaker is a masterpiece of Japanese design that combines simplicity and elegance to create a bar tool that actually helps bartenders make better drinks. Each shaker is micro polished by hand to achieve the ideal surface smoothness that produces the maximum amount of air bubbles and minimizes unwanted ice flaking.

Cocktail Shaker (CS350 / CS500)

Volume 350ml / 500ml

Size $\phi 78\text{mm}$ X 172mm / $\phi 84\text{mm}$ X 192mm

Weight 245g / 336g

- stainless steel
- micro polished by hand
- made in Japan

CS500

Mixing Tin

The Birdy by Erik Lorincz Mixing Tin may be the last mixing glass you'll ever buy. Compared to a fragile glass version, it chills faster, blends better and increases aeration. Each tin is micro polished by hand to achieve an ideal surface smoothness to within 0.2 microns to help bartenders produce better tasting drinks.

Mixing Tin (MT540 / MT800)

Volume 540ml / 800ml

Size $\phi 82\text{mm}$ X 120mm / $\phi 97\text{mm}$ X 140mm

Weight 220g / 300g

- stainless steel
- micro polished by hand
- made in Japan

Double Tin Shaker

Though a quick look may not reveal the extent of the innovation, our Double Tin Shaker is a masterpiece. The 50 Tin fits naturally at an angle on the 80 Tin, creating a straight line to take advantage of the long stroke. The inside edge of the 50z Tin is finely beveled to minimize any damage to ice, a major drawback with standard double tin shakers. The 35-mm overlap section on either tin is cylindrical to maximize the fit, while a subtle curve to the rest of the body ensures a smooth, efficient flow. With our design, you don't have to bang the top or struggle to separate the tins.

Double Tin Shaker (DS80/50)

50 Tin Dimensions: W85 mm x H120 mm, 500 ml, 150 g

80 Tin Dimensions: W90 mm x H170 mm, 800 ml, 230 g

- stainless steel
- micro polished by hand
- made in Japan

Bar Spoon

The Birdy by Erik Lorincz Bar Spoon is as unique as it is stylish. The edges of the stem have been polished to provide a gentle feel and a commanding grip. The design ensures a speedy stir without unnecessary stress on your fingers. The top end includes a highly functional strainer ideal for draining water or lifting ice in a build cocktail.

Birdy Bar Spoon (BS300 / BS400)
(BS300L / BS400L) **for left handed**

Size 30mm X 300mm / 30mm X 400mm

Weight 30g / 40g

- stainless steel
- made in Japan

Strainer

The Birdy by Erik Lorincz Strainer is an ingeniously multi-functional device. Designed to fit snugly on the Birdy Mixing Tin, you'd be surprised at how well it fits other products as well. Created with a smooth matte finish to minimize fingerprints, the strainer also features a concave design for separating eggs or using as an absinthe spoon.

Strainer (ST82)
Size 82mm X 160mm
Weight 80g
- stainless steel
- made in Japan

Kwānt Strainer

The Birdy Kwānt Strainer is the perfect match for the large-size MT800 Mixing Tin and just about any other over-sized mixing glass still unbroken on your back bar. The strainer drops comfortably into the tin to hold ice in place as you strain and pour, with a slightly narrow handle to fit small hands as easily as large ones. The high-polish finish wipes clean easily to match the elegance of your other Birdy bar tools.

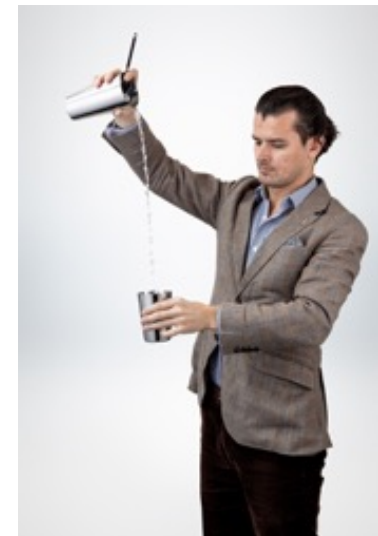

Throwing a cocktail in a busy bar is hard enough without having to make use of products that don't fit well in your hands. The Kwānt Strainer slides smoothly into the 80 Tin or any other large-size tin to hold ice as you roll cocktails. The angle in the handle is designed to fit comfortably when used in either direction and all of the edges are smoothed to allow handling without the risk of cutting your hands or fingers.

Birdy Kwānt Strainer (KS76)

Size 76mm X 190 mm (88mm X 200mm with spring attached)

Weight 105g

- stainless steel
- made in Japan

Jigger

The Birdy by Erik Lorincz Jigger is the one jigger you can't live without. The elegant design features a seamless center grip for smooth handling between the fingers. Inside, a unique non-stick finish makes sure all your spirits end up in the glass, while marks for a variety of measurements makes building drinks easier than ever.

Jigger (JG30/60)

Volume 30ml (10, 20 ml) / 60ml (15, 30, 45 ml)

Size 47mm X 102mm

Weight 62g

- stainless steel
- non-stick coating
- made in Japan

Cocktail Tongs

The Birdy by Erik Lorincz Cocktail Tongs made for cocktail garnishing.

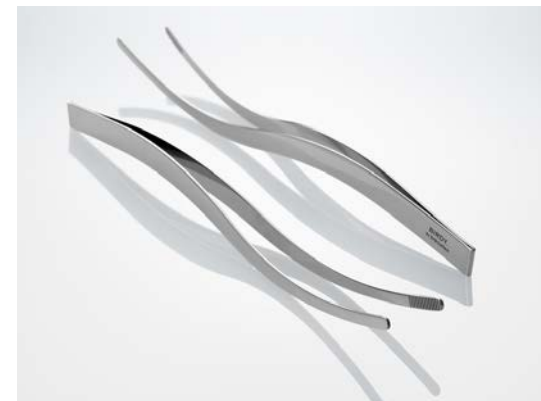

Though made for a distinct purpose, the universal design theory ensures that they feel as if made just for you. The Cocktail Tongs fit large hands as easily as small ones, making them exceptionally easy to use for just about an bartender. Also, made from a single sheet of mirror polished metal to create a natural fulcrum which is pressed to the ideal weight of 1.5 tons. The Birdy by Erik Lorincz Cocktail Tongs offer a wide 20 mm grip, so you can easily handle items such as large-size olives or delicate herbs and flowers. The tongs can be used in either direction depending on the job at hand.

Birdy Cocktail Tongs (CT200)

Size 23mm X 200mm

Weight 25g

- stainless steel
- made in Japan
