CREATED FOR CHEFS

SINCE 2015

CATALOGUE

ABOUT US

Kenai Ceramics — manufacturer and supplier of professional tableware and serving items for HORECA. Inspired by the elegance of natural forms and a minimalist philosophy. Our aims are simplicity, high quality and uniqueness, which are achieved by handcrafting each design.

The brand is named after the Kenai Peninsula, located on the south coast of Alaska. This is an astounding place of grandeur and natural beauty. Here you will find wooded slopes, mighty glaciers, picturesque valleys, peat bogs, lowlands and breathtaking lakes and deep fjords. This picturesque natural world inspired us to create our first collection.

The founders of the brand are brother and sister: chef, Timur Abuzyarov who is the ideological inspiration for the project, and Lolita Senkeyeva, who together with the rest of the team, bring our creative ideas to life.

Over the three years of Kenai's existence, we have worked with many well-known restaurants and chefs: our regular customers are companies from Germany, Portugal and the United Arab Emirates.

We believe that tableware is just as important in a restaurant business as choosing the right frame for a picture. When you fall in love with your business, as we have, you will understand that every detail is important when creating a culinary masterpiece.

HAND MADE

FOCUS

What is important for a chef to effectively present a dish? Correct tone!

We are proud to present our new **Focus** collection - appropriate and authentic.

It is designed to focus on the essentials - the emerald colors of fresh greens, the juiciness of the steak, the velvety structure of the sauce, and the exquisite aroma of the culinary masterpiece...

The saturated shade of **Deep** represents self-knowledge, and the contemplation of the depths of one's Self.

AZORES

Meet the vast turquoise expanse of the Atlantic Ocean in our new collection - **Azores**.

The new colour shade of **Pico** was created in order to frame the dish, just as the mountain of the same name was created by nature to flawlessly decorate the horizon.

Corvo hides the beauty of volcanic pools, scattered over the islands.

The lake on the island of San Miguel is reflected in the stunning colour of **Fogu**.

Terra takes us to the fiery roads of the Azores desert.

The colour of **Kuraish** combines the green anarchy of the island and the gentle haze of cumulus mist.

SEASHORE

We are please to offer the new collection - **Seashore**, inspired by an early peaceful morning on a calm seashore. The new forms appear to have been carved by the waves and their soft lines envelop and sooth. The element of the sea is embodied in the pastel shade of the sand.

Seashore is an opportunity to hear and feel the sea at home.

STONE

Stone is the symbol of stability, firmness and strength.

We were inspired by shades of jade, onyx, granite, and milky quartz. We decided to use them to create the collection.

The smoothness of the stone, worked by nature itself, is reflected in the streamlined shapes that distinguish Stone from other Kenai collections.

COSMOS

One of the most popular of our collections.

Space and infinity are inexhaustible sources of inspiration.

Planets and comets are reflected in the forms of the collection — round and teardrop shaped plates.

The shades of **Moon** and **Callisto** (the name of the second largest moon of Jupiter) are direct references to those images that we were especially fascinated by.

CIRCLE

The force of the wind inspired our team to create this collection. Flat plates with a straight edge in pastel shades will appeal to lovers of minimalism.

Each shade is named after a local wind:

Bora is a strong cold wind that blows in winter in coastal areas.

Mistral is a cold wind from the south of France.

Simoon is a dry hot wind that roams the deserts of North Africa.

And finally, **Sarma** is a strong wind from the western coast of Lake Baikal.

PRODUCTION

The company is administrated in the best traditions of the family business. The quality is our reputation.

We do detailed control of each item at all stages.

Our aims are simplicity, high quality and uniqueness, which are achieved by handcrafting each design with care and love.

A dish is more than just a dish. Its production is an art that requires labor and close attention to detail.

Everything is handmade by Kenai Ceramics.

We use:
PORCELAIN
STONE
SEMIPORCELAIN

FIRING TEMPERATURE
from 1200 C° to 1300 C°

1. Waste firing (intermediate) before decoration.
2. Poured firing (basic with glaze). Each product is covered with glaze from by airbrush (spraying)
3. Slow cooling
